A Full Stack Developer knowledgeable in multiple front and back end languages. Eager to develop the best applications out there. Love to continually learn and grow. Ready to join a team and solve the issues at hand.

DEVELOPMENT EXPERIENCE

Boise Codeworks
JULY 2022 - October 2022

Insta Flix - created a full stack application with a team of 6 developers. We designed the application to help couples move past the daunting task of choosing a movie or show to watch together. Avoiding the uncomfortable arguments. Built in Vue.js and Node.js.

Event Center - created a full stack application that allows users to create events and buy tickets to other events. You can also interact through chat on the event you are currently viewing. Built in Vue.js and Node.js

WORK EXPERIENCE

USPS, Supervisor of Distribution Operations Boise, ID
September 2022 – June 2022
Managed employees in charge of processing incoming and outgoing mail and packages. Tasked with ensuring dispatch times are met. This is the ground level of Customer Service, getting mail and packages in and out in a timely manner gives the customer the service they pay for.

USPS, Supervisor of Customer Service Pullman, WA
June 2018 – September 2022
Managed delivery and distribution of mail and packages. Helped turn this office from the last place Level 21 in the Seattle District into the #1 Level 21. Gave the carriers and the clerks the tools to deliver safely and efficiently. Dealt directly with customers, making sure they receive the best service possible.

USPS, City Carrier Moscow, ID
February 2015 – June 2018
Delivered mail and packages on my assigned route. Providing direct Customer Service to the customers on my route. Enjoyed my business customers, getting to talk to them and serve them daily.
